

Brief Introduction of T-660 Box Truck Refrigeration Unit

T-660 is truck freezer units designed for 19-23m³ truck body. Its temperature controlled is from deep frozen to chilled for different kinds of perishable cargoes delivery. It can be optional equipped with standby system according to customers' demands.

T Series truck refrigeration units as KingClima high-end truck reefer equipment series have a very competitive price and high quality in market compared with Thermo King and Carrier brands. For our box truck refrigeration units, we invite distributors or installers.

Features of T-660 Truck Freezer Units

- *Large cooling capacity to ensure the safety of transported goods
- *Exhaust with large air volume to ensure the freshness of the goods
- *Special defrost system, defrost more thoroughly
- *Wide temperature adjustment range (-23°C to +18°C)
- *Full computer control, easy and safe to operate
- *Quick installation and easy maintenance, saving operating costs

Technical of T-660 Freezer Units for Truck

Application

T-660 box truck refrigeration unit is mainly used for Isuzu truck chassis to build a refrigerated trucks. It is applied for 19-23m³ truck body and the lowest temperature is below to -20°C.

Technical Data

Model		T-660
Temperature Range in Container		-18℃ ~ +20℃
Application of Volume		19-23m3
Cooling capacity	0℃	5030W
	-18℃	2530W
Refrigerant		R404a
Defrosting		Hot gas defrosting(Auto./Manual)
Compressor displacement		210cc
Evaporator	Material	Inner grooved copper tube
	Weight	36kgs
Condenser	Material	parallel flow
	Weight	46kgs
